

# Portfolio of Radio Accessories

## Battery

Motorola original batteries are co-designed with the radio to ensure optimum performance and communications reliability. A variety of chemistries and capacities are available to suit your business operations.

### Mag One

- Consumer grade specifications for light users
- Anti-counterfeit feature with clear housing
- Cost effective
- 6 months warranty

### Motorola Premium

- Industrial grade/MIL specification for heavy users
- Wide selections of models and features:-
  - Size & weight
  - Talk-time capacity
  - Life cycle & temperature selection
  - Intrinsically safe or standard model
- Premium grade cell
- 12 months warranty

### Motorola Impres

- Industrial grade/MIL specification for mission critical users
- Long lasting and useful battery status
- Built-in smart features such as:
  - Battery ID
  - Cycle-life count
  - End-of-service life
- Available in Intrinsically-safe or standard models
- 12 months warranty

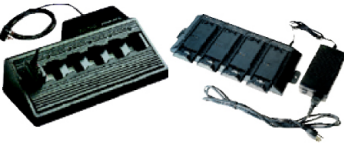

## Charger

Motorola original chargers maximize the battery life and keep batteries in tip-top condition.

### Single-Unit

- Slow Rate:
  - Affordable pricing, basic features
- Rapid Rate:
  - Built with advanced microprocessor
  - Typically 1 to 3 hour charging
  - Tri-chemistry (for latest radio models)
- Conditioning Rapid Charger:
  - "Burrp" or discharge pulse
  - Simple and fast memory effect reduction on NiCd

### Multi-Unit

(Rapid rate & conditioning chargers)

- Rapid Rate:
  - Built-in microprocessor controller for optimum charge
  - Typically 1 to 3 hour charging
  - 6 pockets design (Practical for large fleet operation)
- Conditioning Rapid Rate:
  - 4 pockets design (Practical for large fleet operation)
  - Discharge pulse conditioning
  - Suitable for Nickel-based chemistries

### Vehicular Charger

- For portable radios used in a mobile environment
- Eliminator: power substitute using vehicle supply
- Travel charger: 2-in-one eliminator and charging function
- Vehicular adapter: charging cradles with hands free voice capabilities

### Impres Single/Multi Chargers

- Smart battery/charger/radio system
- 3-in-one: charger/conditioning/re-conditioning
- PC software based for real-time battery maintenance
- Display unit provides battery information such as:
  - mAh reading, charging time, serial number

### Battery Analyzer

- Diagnose battery condition
- Supports hundreds of battery types:
  - portable radios, cellular phones, camcorders and power tool batteries
- Charger/re-conditioning/life-cycle test capabilities

## Audio Accessories

Motorola original chargers maximize the battery life and keep batteries in tip-top condition.

### Motorola Premium

- Industrial grade/MIL specification for heavy users
- Co-designed with radio for maximum performance
- Rugged constructions for use in harsh-environment
- Practical styling for comfort wearing
- Available for most Motorola radio models

### Specialty Audio

- Voiceducer
- Comport
- Helmet-com
- Wireless Discrete earpiece
- Temple-transducer headset
- NFI headset
- Tactical headset
- Motorcycle hands-free headset
- Racing headset

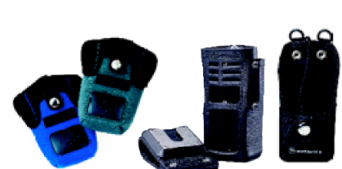

### Smart Audio

- Industrial grade/MIL specification for mission critical users
- Robust and reliable construction
- Built-in SMART technology for:
  - Smart controls
  - Environmental sensing
  - Enhance audio receive and transmit
  - Remote volume and channel control
  - Emergency button

## Carrying Cases

Carrying cases are available in varying sizes and materials to suit your operational needs. Use them together with accessories for added convenience and hands-free mobility.

### Hard and Soft Carrying Cases

- Tested to EME compliance
- Protects the radio for an extended life span
- Professionally styled for easy wearing

### Universal Carrying Accessories

- Tested to EME compliance
- Comfortable, useful and stylish
- Suitable for many radio models

### Carry Holster with Swivel Belt Clip

- Tested to EME compliance
- Provides convenient means for carrying the radio
- Comfortable, useful and stylish

## Mobile Accessories

Motorola offers two distinctive and complete two-way radio communication solutions: Desktop solution and In-vehicle solutions.

### • Desktop

Desktop Tray

External Speaker
